STAT

Dear -NIICP Member,

As you know, the next meeting of the Naval Intelligence Informal Consulting Panel (NIICP) will be held at NOSC, San Diego 7-8 February 1985. (Cdr Jim Sweetman will arrange for all of our clearances to be passed to NOSC.) In order to prepare for this meeting, I request that you submit written inputs to me by 22 January, addressing the following:

- Those generic areas the NIICP should be addressing, to be of most utility to the DNI.
- Those areas which should not be addressed (and why).
- Specific topics the NIICP should address between now and September 1985.

When preparing your input, please be concise -- lengthy submissions are not desired. Also, the DNI requests that we focus upon what he terms "sins of omission" as well as "sins of commission," i.e., that which we feel Naval Intelligence should be doing but isn't, as well as that which should not be pursued. The DNI can then take these inputs and "overlay" them against an all-source background and determine what, if anything, can or should be done in follow-up to our recommendations.

I look forward to receiving your written thoughts, which will provide the basis for our meeting deliberations. An agenda will be forwarded to you, along with government travel claim forms, in late January.

Sincerely,

Ray Tate
